

Project file Alliander '22

Filoform supplies Alliander with materials to connect the low-voltage cable network. This project was awarded to Filoform partly because of the performance on corporate social responsibility (CSR).

Filoform and Alliander agreed upon the following:

Development of 5 new ideas to reduce emissions together with Alliander

Reduction of 17.5% on transport emissions by improving efficiency/bulk transportation

Meetings held online as much as possible

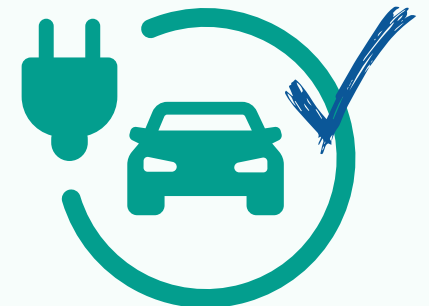

Emissions Alliander project 2022

Gasoline 0.9 tons of CO₂

Electricity (gray) 0 tons of CO₂

Total 0.9 tons of CO₂

100% electric fleet by December '22

Reduce CO₂ emissions by 93% in 2021 compared to 2015
