

# WallMax® Group Accessories

## WallMax® Pre-Compression Tools (WPCT)

WallMax® pre-compression tools are developed for use during module installation, to compress and hold modules and retainer plates into position and ease insertion of the WE Expander into frames.

### Key benefits:

- » Compresses module combinations within the frame packing space
- » Ensures tight sealing of cable and pipe entries against the passage of external elements
- » Controlled compression via frontal screw

### Materials:

SS AISI 316 L  
Galvanised Steel

Code	Article	Description
717020 0001	WPCTL W 120	WallMax® Pre Compression Tool Long Width 120
717020 0002	WPCTS W 120	WallMax® Pre Compression Tool Short Width 120
717020 0003	WPCTL W 60	WallMax® Pre Compression Tool Long Width 60
717020 0004	WPCTS W 60	WallMax® Pre Compression Tool Short Width 60
